Section 1

Introduction

This directory provides a list of Great Plains Medicare Advantage's network providers.

You will have to choose one of our network providers listed in this directory to be your Primary Care Provider (PCP). Generally, you must get your health care services from your PCP. Your PCP works in collaboration with your Great Plains Medicare Advantage Nurse Practitioner or Physician Assistant to arrange and coordinate your care.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. You should see your PCP first for most of your routine health care needs. Your PCP can provide much of your care and can help you arrange or coordinate the rest of the covered services you get as a member of our plan.

If you receive a bill from an out-of-network provider, you should not pay the bill, unless you have received an Explanation of Benefits (EOB) that details what the plan will pay for your service, and any remaining balance you will need to pay. If you receive a bill from an out-of-network provider, but have not yet received an EOB, please submit the bill to Great Plains Medicare Advantage or ask the provider to submit the bill to your plan for you.

Emergency care: Emergency care can always be obtained in or out of the service area from the nearest available provider.

Urgently needed care: We will cover urgently needed care that you receive from a Medicare participating provider when you are out of the Plan's service area or when our network providers are temporarily unavailable.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Great Plains Medicare Advantage will be responsible for the costs.

Section 1 Continued
