Welcome

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us” or “our,” it means Good Samaritan Insurance Plan of North Dakota, South Dakota and Nebraska LLC. When it refers to “plan” or “our plan,” it means Great Plains Medicare Advantage (HMO I-SNP).

This document includes a list of the drugs (formulary) for our plan which is current as of April 1, 2024. For an updated formulary, please contact us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

You must generally choose network pharmacies to use your prescription drug benefit. Benefits, formularies, pharmacy networks and/or copayments/coinsurance may change on Jan. 1, 2024 and from time to time during the year.

Understanding your formulary

What is the Great Plains Medicare Advantage (HMO I-SNP) Formulary?

A formulary is a list of covered drugs selected by the plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program.

The plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a plan network pharmacy and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete list of all prescription drugs covered by the plan, please visit our website or call us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

About this formulary

Where differences exist between this formulary and your benefit plan documents, the benefit plan documents rule. This may not be a complete list of medications, and not all medications listed may be covered by your plan. Please look at the benefit plan document also referred to as your Summary of Benefits.

Understanding your formulary

Can the Formulary (drug list) change?

Most changes in drug coverage occur on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers or add new restrictions. We must follow the Medicare rules in making these changes.

Changes that can affect you this year: In the following cases, you will be affected by coverage changes during the year.

New generic drugs. We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you.

Drugs removed from the market. If the Food and Drug Administration deems a drug on our formulary to be unsafe or if the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

Other changes. We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand name drug currently on the formulary; or add new restrictions to the brand name drug, move it to a different cost-sharing tier or both. Or we may also make changes based on new clinical guidelines.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 31-day supply of the drug.

Understanding your formulary

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you.

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of April 1, 2024. To get updated information about the drugs covered by the plan, please contact us. Our contact information appears on the front and back cover pages. The monthly formulary updates will be posted on our website, including the date it was updated.

Understanding your formulary

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Calcium Channel Blocking Agents. If you know what your drug is used for, look for the category name in the list that begins on page 11. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 67. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

The plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Understanding your formulary

The formulary gives you choices so you and your provider can decide your best course of treatment. In this formulary, brand-name medications are shown in UPPERCASE (for example, CLOBEX) and generic medications in lowercase (for example, clobetasol).

Drug list information

In this drug list, some medications are noted with letters next to them to help you see which ones may have coverage requirements or limits. Your benefit plan determines how these medications may be covered for you.

NDS	Non-Extended Day Supply — This prescription drug is not available for an extended days' supply.
PA	Prior Authorization — You or your provider must get pre-approval for the medicine with OptumRx before you can get the prescription filled. NOTE: While the member is ultimately responsible for obtaining prior approval from OptumRx, we are here to help you or your provider through this process.
QL	Quantity Limit/Amount Allowed — Medication may be limited to a certain quantity.
B/D	This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
ST	Step Therapy — Trial of a lower-cost medication(s) is required before a higher-cost medication can be covered.
PA NSO	Prior Authorization New Starts Only — A prior authorization is only required when a new medication is to be started.
ST NSO	Step Therapy New Starts Only — Step therapy is only required when a new medication is to be started.

Understanding your formulary

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that GPMA does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by GPMA. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by GPMA.
- You can ask GPMA to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the GPMA's Formulary?

- You can ask GPMA to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.
- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, GPMA limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, GPMA will only approve your request for an exception if the alternative drugs included on the plan's formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, or utilization restriction exception. When you request a formulary, or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request. Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your

Understanding your formulary

health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 31-day supply of medication. After your first 31-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

For more information

For more detailed information about your GPMA prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about GPMA, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Understanding your formulary

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

GPMA Formulary

The formulary provides coverage information about the drugs covered by GPMA. If you have trouble finding your drug in the list, turn to the Index.

If your prescription is not in this partial formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., VICTOZA) and generic drugs are listed in lower-case italics (e.g., *lisinopril*).

The information in the Requirements/Limits column tells you if GPMA has any special requirements for coverage of your drug.

This formulary was updated on March 1, 2024.
