Welcome

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us” or “our,” it means Good Samaritan Insurance Plan of North Dakota, South Dakota and Nebraska LLC. When it refers to “plan” or “our plan,” it means Great Plains Medicare Advantage Gold (HMO I-SNP).

This document includes a list of the drugs (formulary) for our plan which is current as of 01/01/2025. For an updated formulary, please contact us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

You must generally choose network pharmacies to use your prescription drug benefit. Benefits, formularies, pharmacy networks and/or copayments/coinsurance may change on Jan. 1, 2025 and from time to time during the year.

Understanding your formulary

What is the Great Plains Medicare Advantage Gold (HMO I-SNP) Formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by our plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program our plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete list of all prescription drugs covered by Great Plains Medicare Advantage Gold (HMO I-SNP), please visit our website or call us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

About this formulary

Where differences exist between this formulary and your benefit plan documents, the benefit plan documents rule. This may not be a complete list of medications, and not all medications listed may be covered by your plan. Please look at the benefit plan document also referred to as your Summary of Benefits.

Understanding your formulary

Can the Formulary (drug list) change?

Most changes in drug coverage occur on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website at greatplainsmedicareadvantage.com/member-resources.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year.

Immediate substitutions of certain new versions of brand name drugs and original biological products. We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. For more information, see the section below titled "How do I request an exception to Great Plains Medicare Advantage Gold (HMO I-SNP)s Formulary?" Some of these drug types may be new to you. For more information, see the section below titled "What are original biological products and how are they related to biosimilars?"

Understanding your formulary

Drugs removed from the market. If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.

Other changes. We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand-name drug currently on the formulary, or add a new biosimilar to replace an original biological product currently on the formulary, or add new restrictions or move a drug we are keeping on the formulary to a higher cost-sharing tier or both after we add a corresponding drug we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 31-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Great Plains Medicare Advantage Gold (HMO I-SNP) Formulary?”

The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Great Plains Medicare Advantage Gold (HMO I-SNP) Formulary?”

Understanding your formulary

Changes that will not affect you if you are currently taking the drug.

Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 01/01/2025. To get updated information about the drugs covered by Great Plains Medicare Advantage Gold (HMO I-SNP), please contact us. Our contact information appears on the front and back cover pages. The monthly formulary updates will be posted on our website, including the date it was updated.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

1) Medical Condition

The formulary begins on page 12. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Calcium Channel Blocking Agents. If you know what your drug is used for, look for the category name in the list that begins on page 12. Then look under the category name for your drug.

2) Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 71. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

Understanding your formulary

What are generic drugs?

Our plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

Understanding your formulary

The formulary gives you choices so you and your provider can decide your best course of treatment. In this formulary, brand-name medications are shown in UPPERCASE (for example, CLOBEX) and generic medications in lowercase (for example, clobetasol).

Tier information

Tiers are different cost levels you pay for a medication. This is how much you will pay when you fill a prescription. Using lower tier or preferred medications can help you pay your lowest out-of-pocket cost. Consult your Summary of Benefits to determine your cost for each of the tiers listed below.

Drug Tier	Includes	Helpful Tips
Tier 1	\$ Lower cost preferred generic	Use Tier 1 drugs for the lowest out-of-pocket costs.
Tier 2	\$\$ Mid-range cost generic	Use Tier 2 drugs instead of Tier 3 to help reduce your out-of-pocket costs.
Tier 3	\$\$\$ High cost non-preferred generic Preferred brand Select Insulin Drugs	Many Tier 3 drugs have lower-cost options in Tiers 1 or 2. Ask your provider if they could work for you. Select insulin drugs with a \$35 maximum copay for up to a 30-day supply.
Tier 4	\$\$\$\$ Higher cost non-preferred brand	Preferred specialty medications typically require more information from you or your provider to determine coverage.
Tier 5	\$\$\$\$\$ Highest cost specialty	Non-preferred specialty medications typically require more information from you or your provider to determine coverage. Lower cost options may be available.
Tier 6	\$0 copay	Generic medications used to treat targeted conditions like diabetes, high blood pressure, high cholesterol and osteoporosis.

Drug list information

In this drug list, some medications are noted with letters next to them to help you see which ones may have coverage requirements or limits. Your benefit plan determines how these medications may be covered for you.

NDS	Non-Extended Day Supply – This prescription drug is not available for an extended days' supply.
PA	Prior Authorization – You or your provider must get pre-approval for the medicine with OptumRx before you can get the prescription filled. NOTE: While the member is ultimately responsible for obtaining prior approval from OptumRx, we are here to help you or your provider through this process.
QL	Quantity Limit/Amount Allowed – Medication may be limited to a certain quantity.
B/D	This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
ST	Step Therapy – Trial of a lower-cost medication(s) is required before a higher-cost medication can be covered.
PA NSO	Prior Authorization New Starts Only – A prior authorization is only required when a new medication is to be started.
ST NSO	Step Therapy New Starts Only – Step therapy is only required when a new medication is to be started.

Understanding your formulary

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that GPMA does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by GPMA. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by GPMA.
- You can ask GPMA to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the GPMA's Formulary?

- You can ask GPMA to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.
- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, GPMA limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, GPMA will only approve your request for an exception if the alternative drugs included on Great Plains Medicare Advantage Gold (HMO I-SNP)'s formulary, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You or your prescriber should contact us to ask for a formulary exception, including an exception to a coverage restriction. When you request an exception, your prescriber will need to explain the medical reasons why you need the exception. Generally, we must make our decision within 72 hours of

Understanding your formulary

getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 90-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 31-day supply of medication. If coverage is not approved, after your first 90-day supply, we will not pay for these drugs, even if you have been a member of Great Plains Medicare Advantage Gold (HMO I-SNP) less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90- days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

For more detailed information about your GPMA prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about GPMA, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or visit <http://www.medicare.gov>.

Great Plains Medicare Advantage (GPMA) Formulary

The formulary provides coverage information about the drugs covered by GPMA. If you have trouble finding your drug in the list, turn to the Index that begins on page 71.

If your prescription is not in this partial formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., VICTOZA) and generic drugs are listed in lower-case italics (e.g., *lisinopril*).

The information in the Requirements/Limits column tells you if GPMA has any special requirements for coverage of your drug.
