More than a health plan.

With an on-site physician assistant or nurse practitioner, you'll receive personalized, compassionate care without leaving the comfort of your long-term care location.

Our health professionals provide:

Routine Visits by Physician Assistant or Nurse Practitioner

Monthly, bi-weekly or weekly visits based on a comprehensive clinical assessment.

This preventive approach allows your health care provider to identify changes from a baseline condition to prevent avoidable hospitalizations.

Diagnosis and treatment

Diagnostic tests to detect or treat illnesses or chronic conditions early.

Care coordination

Collaboration with your care team to monitor your condition, coordinate appointments and provide referrals.

Medication review and monitoring

Review and monitoring of your medications while coordinating with the pharmacy to ensure medications are working well together.
